PROFESSIONAL SUMMARY

2027 B.Tech Computer Science and Engineering student with knowledge of Java, Python, SQL, full-stack development and AI/ML fundamentals. Built academic and personal projects using Next.js, PostgreSQL, MongoDB, Docker and REST APIs. Currently learning Spring Boot and developing a Java backend for AgriAI. Strong in problem-solving, teamwork, adaptability and continuous-learning skills, with an interest in software development, testing, debugging, building reliable software applications.

PROFESSIONAL EXPERIENCE

AI/ML Intern | InternPe

05/2026 – 06/2026

- Gained practical knowledge of data preprocessing, model training, prediction testing and performance evaluation.
- After completing the internship, independently applied the acquired knowledge while developing [AgriAI](#), an AI-powered agriculture platform.

AI/ML Intern | Saredufy Web Plus Academy Pvt. Ltd.

06/2025 – 08/2025

- Completed an eight-week online internship focused on computer vision, deep-learning fundamentals and Python-based AI development.
- After completing the internship, independently applied these concepts while developing [LipSpeak](#), a visual speech recognition system.

PROJECTS

ForgeAI – Multi-Agent AI Software Development Orchestration Platform

05/2026 – Present

- Developed a CLI-first multi-agent platform for software planning, implementation, testing, validation and documentation.
- Designed Project Manager, Backend, Testing and Documentation agents using structured workflows and task dependencies.
- Integrated Qwen through Ollama and implemented Pydantic validation, workflow checkpointing, Docker sandbox execution and automated testing.

Tech Stack: Python, LangGraph, Ollama, Qwen, Pydantic, Docker, Pytest

GitHub: <https://github.com/santhosh18v/ForgeAI>

DentOS AI – Multi-Tenant Dental Clinic Management SaaS

06/2026 – 07/2026

- Developed and deployed a multi-tenant platform for patient management, appointments, billing, clinical records and analytics.
- Implemented JWT authentication, Role-Based Access Control, password hashing, tenant isolation and secure REST APIs.
- Integrated AI-assisted clinical dictation using Faster-Whisper, FastAPI, Ollama and Qwen.

Tech Stack: Next.js, TypeScript, PostgreSQL, Prisma ORM, FastAPI, REST APIs, Docker, Render

Live : <https://dentos-ai.onrender.com>

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, SQL (ANSI SQL)

Web and Backend Technologies: Next.js, React.js, Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC, HTML5, CSS3

Databases and ORM: PostgreSQL, MySQL, MongoDB, Prisma ORM

AI/ML: Machine Learning, Deep Learning, Computer Vision, NLP Fundamentals, GenAI, NumPy, PyTorch, Pandas, Ollama, Qwen

Tools and Platforms: Git, GitHub, Docker, Postman, Render, Vercel, Visual Studio Code

Core Fundamentals: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Cloud Fundamentals, SDLC, Agile

CERTIFICATIONS

- Machine Learning Specialization - Stanford Online & DeepLearning.AI – Coursera
- Google Cloud AI Bootcamp – Analyze Sentiment with Natural Language API – Pragyashal

EDUCATION

BTech in Computer Science and Engineering

Madanapalle Institute of Technology & Science

CGPA: 7.92

2023 – 2027 | Madanapalle, Andhra Pradesh

Intermediate (PCM), Sri Siddartha Junior College

Percentage: 96.4%

2021 – 2022 | Madanapalle, Andhra Pradesh

Matriculation, Vishwa Vijetha High School

Percentage: 99.5%

2020 – 2021 | Gandlapenta, Andhra Pradesh
