

Thunga Santhosh Kumar Reddy

AI Engineer | Full Stack Developer

📞 +91 9014743783 ✉ santhoshthunga297@gmail.com [in linkedin.com/in/thunga-santhosh-reddy](https://www.linkedin.com/in/thunga-santhosh-reddy) <https://github.com/santhosh18v>

Professional Summary

Aspiring AI Engineer and Full Stack Developer with experience designing and developing AI-powered applications and scalable web solutions. Skilled in JavaScript, Node.js, databases, REST APIs, and authentication systems. Passionate about artificial intelligence, machine learning, and building innovative products that solve real-world problems. Continuously exploring modern AI technologies and software engineering practices to create impactful and user-focused solutions.

Projects

DentOS AI – Multi-Tenant Dental Clinic Management SaaS

Jun 2026 – Present

- Built and deployed a full-stack multi-tenant SaaS platform for dental clinics using Next.js, TypeScript, PostgreSQL, Prisma ORM, and Tailwind CSS.
- Designed secure JWT-based authentication with Role-Based Access Control (RBAC) and clinic-level tenant isolation.
- Developed patient management, appointment scheduling, clinical notes, billing, invoice generation, and analytics modules.
- Built RESTful APIs with server-side validation, authorization middleware, and secure database access patterns.
- Deployed the application on Render with Neon PostgreSQL and configured production environment variables, database migrations, and CI/CD workflows.
- Currently implementing AI-powered clinical dictation using Faster-Whisper and locally hosted LLMs (Ollama + Qwen) for automated clinical note generation.

Tech Stack: Next.js, TypeScript, React, PostgreSQL, Prisma ORM, Tailwind CSS, JWT, Shadcn UI, REST APIs, Neon PostgreSQL, Render, Docker, Git, GitHub

LipSpeak – AI-Powered Lip Reading System

Jan 2026 – Present

- Developed an AI-based lip-reading system capable of predicting spoken words from silent video sequences using deep learning techniques.
- Built a complete data preprocessing pipeline for extracting and preparing video frames for model training.
- Trained and evaluated machine learning models on lip movement datasets to recognize speech visually.
- Performed speaker-independent testing and model evaluation to analyze generalization performance on unseen speakers.
- Conducted experiments on dataset quality, training strategies, and prediction accuracy to improve model performance.
- Implemented data processing, model training, and inference workflows using Python and deep learning frameworks.
- Experimenting with model architectures, training strategies, and dataset optimization to improve prediction accuracy.

Tech Stack: Python, TensorFlow/PyTorch, OpenCV, NumPy, Pandas, Deep Learning, Computer Vision, Machine Learning.

Training & Internship

AI/ML Internship & Training | Sarefudy Web Plus Academy

Jun 2025 – Jul 2025

- Completed an online internship focused on Artificial Intelligence, Machine Learning, NLP, and Generative AI concepts.
- Developed an AI Product Description Generator using the OpenAI API to automatically generate product descriptions from product information.
- Worked on prompt engineering, AI API integration, and AI-powered application development.
- Applied Python and web technologies to build and test AI-driven solutions.

Tech Stack: Python, OpenAI API, NLP, Prompt Engineering, HTML, JavaScript

Certifications & Achievements

- Google Cloud Skill Badge – Analyze Sentiment with Natural Language API – Google Cloud
- AI/ML Internship Completion Certificate - Sarefudy Web Plus Academy
- Data Science for Beginners Certification
- Participated in College-Level Hackathon 2025

Technical Skills

- **Languages/Databases:** Java, Python, JavaScript (ES6+), TypeScript, SQL, PostgreSQL, MongoDB
- **Web Technologies:** Next.js, React.js, Node.js, Express.js, REST APIs, JWT Authentication, Tailwind CSS, HTML5, CSS3
- **Tools/Platforms:** Git, GitHub, Docker, Prisma ORM, Render, Neon PostgreSQL, VS Code
- **AI/ML:** OpenAI API, Deep Learning, Computer Vision, NLP Fundamentals, Generative AI, Machine Learning Basics
- **Core CS Fundamentals:** Data Structures and Algorithms, Operating Systems, Computer Networks, DBMS

Education

Madanapalle Institute of Technology & Science

BTech in Computer Science and Engineering - **CGPA:** 7.92

2023 – 2027

Madanapalle, Andhra Pradesh

Sri Siddhartha Junior College

2021 – 2022

Intermediate (PCM) - **Percentage:** 96.4%

Madanapalle, Andhra Pradesh

S.P.V.B High School

2020 – 2021

Matriculation - **Percentage:** 99.5%

Gandlapenta, Andhra Pradesh
